

Training Management and Organisational Learning for Oil and Gas Industries Training

Description

Introduction

This course will introduce participants to Organisational Learning & Training Management for Oil & Gas Industries. Organisational learning is a characteristic of an organisation that is able to predict changes in signals from its environment (both internal and external) and adapt accordingly.

Organisational learning and the learning organisation has flourished and been defined in a wide range of literature, it is part of the discipline of Organisational Development (OD). Training management is about positioning training at the core of what you do. It is about becoming a 'Learning Organisation'.

- Learn about organisational learning as a key management process
- Understand the application of training management in your organisation
- Becoming a learning organisation
- There will be a practical workshops/exercises each day where what has be learnt will be put into practice
- The programme has been developed to address the special needs of the Oil and Gas environment
