

Accounts Receivable – Planning, Organising and Achieving Best Practice Training

Description

Introduction

Granting credit carries a higher risk of bad debts, delays, uncertainty and even possibilities of spoiling business relations. Companies are continuously in search for better solutions and better strategies to manage their credit, recognizing that whilst credit is an essential sales tool in today's competitive environment.

This programme provides businesses and other organizations with a strong sense of where they stand against industry leaders and shows them how to take their services and organizational processes to state of the art levels.

Documented strategies and tactics employed by highly admired companies are presented both successful and unsuccessful to illustrate the real world functionality of each process and approach.

By attending this event, delegates will understand:

- The importance of credit to the company and the economy
- The “cost of credit” and its impact on company profitability
- Practical steps that reduce bad debt losses and “uncollectible” debtors
- How to use different tools and techniques to maximize cash collection effort
