

## Finance, Risk Management and Corporate Governance Training

### Description

#### Intorduction

This course offers insights into the main factors that are essential to the successful financial management of corporations. In an uncertain economic environment managers need to be aware of the power and importance of key stakeholders – shareholders, bankers, customers and suppliers. Managers need to efficiently allocate resources, whilst recognizing environmental and ethical concerns, controlling risks, and effectively communicating strategy and performance.

This course will introduce delegates to the terminology and techniques that are commonly used in corporate finance, and will provide significant experience in terms of content, discussion, and case study working.
